

We have an over stock of Nice new Cloaks for Girls and Children

and as our practice has always been not to carry anything from one season to the other, we have decided to close all our children's Cloaks at one-half of their price.

Now anybody reading this ad and who wants to buy anything of that description will be able to save quite a little money by buying of us, and that early as we shall soon be out of them at the prices we have set on them. Come in to day and get a coat for the little or big girl. Come now.

SPAFFORD & COLE.

What You Going to Buy for Christmas

Is the All Important Question that confronts nearly every person you meet these days. Some of you have your minds fully made up, but the most of you are still at sea. Why not buy a

SUIT OVERCOAT, HAT OR CAP!

Nothing makes a more appropriate or beneficial Christmas present than some article of clothing such as an Overcoat, a Suit of Clothes, Hat, Cap, Neck Scarf, or any article of wearing apparel. We have a lot of good things in these lines and invite an early selection. Holiday purchases will be laid away until called for

WISCONSIN RIVER DOES IT.

Few people in Rhinelander are aware that the Old Wisconsin is now furnishing the power for our electric lights in this city, but such is the case. The power plant at Hat Rapids has been completed and is now running. In a day or two it is expected we will have a day current. As the machinery at the dam is all new, steam has been kept up at the Rhinelander Lighting Company's plant, so as to be ready if anything should go wrong with the new machinery, but it has been entirely unnecessary, the new machinery works like a charm, and the Rhinelander Power Co. has now cast its lot among the business enterprises of this city. We understand the company still has several hundred horse power to sell, but it is safe to predict they will not have to wait long for a purchaser.

DEATH OF AN OLD RESIDENT.

Robert Franklin, for many years a merchant residing on the North Side passed away last Thursday morning after a brief illness of pneumonia.

Mr. Franklin was nearly sixty years of age, and though in failing health for the last two years, it is thought the shock of the fire which destroyed his store building in October, made him less able to withstand the attack of pneumonia.

He leaves a wife and daughter to mourn his death. The funeral was held Sunday afternoon from the residence of C. H. Howe on North Brown street, Rev. Richard Evans officiating.

UNION SERVICE.

The Baptist, Congregational and Methodist churches held a union service at the Congregational church last Sunday evening, and hereafter they will hold a union service in some one of those churches, the first Sunday evening of each month. Rev. Richard Evans of the M. E. Church, delivered a very able sermon using for his text the words from St. Paul, "Coat earnestly the best gifts. Yet a more excellent way show I unto you." Mr. Evans described some of the antiquated methods of years ago, and brought out forcibly the more excellent way of today in the line of travel, modern methods, etc. In substance he counseled every one to develop the best that was in them, that it might lead to better things. He said, "he who does not endeavor to climb up will certainly slide down, mentally, morally and physically." The music was very fine, Mrs. E. A. Edmonds favoring the congregation with a solo. The next union meeting will be held in the M. E. Church when Rev. A. G. Wilson will speak.

ANOTHER BENEFIT.

The new Hat Rapids dam that is now furnishing power for our lights and manufacturing interests is of great benefit to Rhinelander in another way. The dam has now backed water this side of the mouth of the Pelican, and while the water is of course slowly moving and changing, the current is imperceptible and the river has the appearance of a long narrow lake.

Citizens of this city have long wanted another lake. The Wisconsin now supplies this want, and the people desiring a nice boat ride of about eight miles with scenery that is hard to beat in Northern Wisconsin, should place their launches in the Wisconsin or Pelican next summer.

A steamboat plying between here and Hat Rapids in the summer would pay a very good dividend on an investment to that amount, and be of material benefit to the city.

ELECT OFFICERS.

RHINELANDER LODGE NO. 212 A. F. & A. M.

LEGISLATURE CONVENES.

The legislature met in special session last Monday afternoon. The senate was called to order by Lieut. Gov. Davidson and J. J. McMillin was elected president pro tem. L. L. Lennart was elected speaker of the assembly. The Governor read his message in joint session of both houses Tuesday morning at 9:15. At the close of the message the Governor said, "During this special session, or at least, at its close, I shall transmit to you my resignation as governor and accept your high commission as United States Senator."

In his message the Governor addressed amendments to the following matters: Primary Election; New Form of Ballot; Insurance Companies; Public Service Corporations; Railroad Rate Commission; Capital Building; Grain and Warehouse Commission; State Tax Commission.

ELECTED POOR COMMISSIONER.

L. M. Willis was yesterday elected poor Commissioner by the county board in place of Rev. D. D. Dietzman who leaves for Richland Center to take up other work. We are not personally acquainted with all the candidates for the position to succeed Mr. Dietzman, but we know Mr. Willis and we think people generally will endorse the action of the board and consider their selection a wise one. The interests of the county farm will be well looked after by Mr. Willis and his duties will be performed in a conscientious manner.

CALL FOR GOODS.

During the recent fire certain goods were left with me that have not been called for. They are goods that the owners probably think were burned. Owners can have same by calling on the undersigned.

OLUF GOLDSTRAND,
622 Mason Street.

TAXES.

The apportionment of taxes this year by the county board has been as follows:

Cassida	\$1143.02
Greent	528.89
Enterprise	2415.47
Gager	2885.74
Hazeburt	1779.77
Lynne	2202.24
Minoqua	1811.66
Monko	1829.69
Pelican	1821.64
Pine Lake	1229.99
Rhinelander	1821.64
Sugar Camp	4123.29
Schwenker	1779.07
Woodborn	1294.53
Woodruff	1049.22
Total	\$34293.77

COUNCIL MEETING.

At a regular meeting of the council Tuesday evening, Hans Anderson was appointed alderman from the Second ward in place of Jas. Whalen, resigned. Mr. Anderson resigned as member of the school board and Olaf Goldstrand was appointed in his place. Chas. Perry was appointed supervisor from the Second ward in place of F. D. Briggs resigned. A committee of three aldermen viz: Divers, Anderson and Dorsch was appointed to meet the school board and consider the plan of building a school building on the North side.

CHRISTMAS SALE.

The ladies of St. Mary's Catholic church will hold a Christmas sale in the Stapleton building on Thursday and Friday, December 14th and 15th.

HIGH BOWLING SCORES.

The following are the high bowling scores at the Anderson allies during month of November:
W. J. Morgan..... 244 237 235
Frank Pecor..... 244 245
John Sohr..... 216 214 225

A GREAT SUCCESS.

The first meeting of the Men's Club last Wednesday evening was a success in every way. Seventy-one members were present and sixty-three of the seventy-one present agreed to become members of the club. Membership is not to be limited, and the next meeting will be held at the Rapids House, Wednesday evening, Dec. 20th. The subjects assigned different ones were very nicely handled. S. S. Miller spoke on "Public Buildings" and stated Rhinelander needs in that line. Becoming warmed up to his subject he brought down the house by accidentally addressing the gathering as "Gentlemen of the jury." E. O. Brown spoke on "Hotels" describing an up to date hotel, and showed how the interests of the city would be benefited by the establishment of one more first class hotel in this city. Dr. T. L. Welch read a paper on "Fraternity and Social Clubs" which was much enjoyed. We publish it in this issue. As the hour was late S. J. Gary did not read his paper on "Population," making a few extemporaneous remarks instead, that were well received. A. G. Wilson explained the plans and purposes of the club and sixty-three joined at once.

The menu was very fine. A ringing vote of thanks to the proprietress was called for by Master of Ceremonies, D. H. Walker, all responding except Edge Sturdevant, who was unable to get on his feet without assistance. There were no dress suits, everyone enjoyed the occasion. D. H. Walker as master of ceremonies wore a white vest which caused some comment at first, but Mr. Walker explained that the buttons were off his "other" vest and the matter was dropped. Gene Shepard wore as a pleasing contrast, a blue woolen shirt, and endeavored to get members. (Continued on last page.)

When You Buy, Buy The Best! You Can Get It Here!

Anything in Lumbermen's Rubbers with or without tops, and Overshoes with from 1 to 4 buckles and without buckles.

The largest line of Suits in the city in all patterns such as Checks, Plaids, Stripes and plain colors

THE TURMOIL IN RUSSIA.

The battle between Russian multi-ethnics and loyal troops at Sebastopol is said to have resulted in the loss of 5,000 lives and the sinking of four warships. A strike of telegraphers has cut off St. Petersburg from the interior. The life of the czar is endangered by disloyalty of the soldiers that form his bodyguard.

Russian rebels at Sevastopol were defeated in a three-hour battle. Ten of their warships were sunk, riddled or surrendered. The forts were carried by bayonets. Half the city was destroyed by fire and shell.

There has been serious street fighting in Kiev, Russia, between multi-ethnics and Cossacks, and between workmen and bands of the "Black Hundred." Fifty multi-ethnics were killed and about 100 wounded.

Telegraphers throughout Russia are on strike. Cities are completely isolated and government must now fight its enemies in the dark.

The effect of the strike of telegraphers in Russia was felt in this country when cable companies announced that messages for Russia in Europe will be accepted only subject to delay.

Related dispatches sent from points in Russia by courier to telegraph offices across the border, report that the situation is more serious than before the strike of the telegraphers.

The czar has signed a decree abolishing martial law in Russian Poland.

A dispatch from St. Petersburg says the government intends to mobilize all the Cossacks, numbering 450,000.

The Polish-American citizens of Chicago have started a movement to induce President Roosevelt to interfere on behalf of Polish sufferers from Russian persecution.

MISCELLANEOUS.

A total of 107 lives have been sacrificed, over 70 ships wrecked and a loss of nearly \$1,000,000 has been sustained in the three big storms on the Great Lakes this season. That this is the most disastrous season in the history of shipping on the lakes is beyond doubt.

The Chicago steamer Ira H. Owen foundered in Lake Superior and her entire crew of 19 men was lost.

Republican and democratic congressional caucuses nominated Joseph G. Cannon and John Sharp Williams, respectively, for the speakership of the house.

Eighteen men were killed in a Wyoming coal mine by an explosion 4,000 feet from the entrance to the shaft.

Members of prominent brick-making companies and labor leaders were indicted in Chicago for conspiracy as a result of the "brick trust" investigation.

Dr. McLeod, accused of complicity in the Boston suit case murder, was cleared by a jury.

Midshipman Meriwether was acquitted by naval court martial of the manslaughter charge. He was found guilty of conduct unbecoming an officer and will be dismissed from the service.

A heavy piece of iron was thrown through the window of a car of the train in which President Roosevelt was returning to Washington. Webb Hares had a narrow escape from being hit.

Harry Williams and Jack Esh were instantly killed near Carbon, Ind., by a west-bound Big Four passenger train.

Minister Takahira, speaking in New York, said the United States will have 600,000 people by the end of this century.

President Roosevelt has declared himself against "bessism" in New York city politics. This declaration has made emphatic in letters to personal and political friends regarding the selection of a president of the republican committee of New York county.

Secretary Root has addressed a letter to Charles Haysard, president of the American Society of the Isle of Mice stating positively that in his judgment the Isle of Mice belongs to Cuba, and strongly advising the Americans there to submit themselves to Cuban law.

Thomas J. Maloney died from injuries received in a street car accident in Chicago, after saving the life of a four-year-old boy.

EXTRA SESSION IS ON

THE WISCONSIN LEGISLATURE MEETS AT MADISON.

SENATORSHIP A QUESTION

Eleven Subjects for Calling Special Meeting Are Given in the Governor's Proclamation—Some in Mystery.

(W. W. Garrison, Staff Correspondent.) Madison, Wis., Dec. 1.—Gov. La Follette's special session of the legislature convened this afternoon amid an air of mystery, which has not as yet been cleared. The 11 points for which the governor called the session, as given in his proclamation, are as follows:

1. To amend the law providing for additional and repairs to the capitol.
2. To amend the so-called railroad rate commission bill.
3. To provide for the change in taxation or license fees of railroads and to provide for their collection.
4. To alter the primary election law.
5. To provide a form of ballot.
6. Relating to fishways in dams.
7. Relating to the erection of bridges.
8. To amend the act forming a grain inspection commission passed by the last legislature.
9. To provide funds temporarily for the university.
10. To enact laws against abuses in insurance companies, railroads and other public service corporations.
11. To receive messages relating to the governorship or senatorship.

Togo Is Subject of Call.

And, of course, every follower of legislative doings will at once ask what the primary motive for convening the session might be in the governor's mind. The eleventh provision of the gubernatorial document, it is believed, by almost every authority in state politics here, holds the key to the mystery of the special session of 1905, the first since the ten-day extra meeting of 1892.

Gor. La Follette will doubtless embrace the extra session as an opportunity for placing another man in his gubernatorial shoes, while he journeys to Washington to take his seat in the senate, to which office he was elected by the regular legislature of 1902.

There are many who adhere to the general belief of last summer, in which the governor was to decline the senatorship and stay with the Wisconsin administration, but just now the gist of political opinion places the governor in his senatorial toga and some one else, whose identity is still clouded, in the governor's chair.

Who Will Be Next Governor?

Those who are interested in the proceedings of the senate call attention to Gov. La Follette's declaration during the regular session, when he said that he would continue to hold the gubernatorial chair if the railroad rate bill was not passed. The measure was passed, and there are some who declare that this statement of the governor's is a sure indication that he will surrender the chair to some able man of his party. Just who that man will be it is impossible to state at this time with any sense of certainty.

Davidson, McGillivray and Lezroort are among the numerous candidates for which ever position the governor vacates, and these friends of the executive give the latter a shade of the favoritism. Lezroort brought himself into prominence through his service in the speaker's chair during the last regular session.

Gov. Herriek, of Ohio, issued a Thanksgiving pardon to Jefferson Shanks, of Miami county, who was sent up for life July 6, 1903, for murder.

Robbers wrecked the safe of the Citizens' national bank, at Owl, I. T., and escaped with over \$3,000.

Drugs worth from \$25,000 to \$50,000 have been stolen from wholesale chemists in New York during the last few months, according to detectives who arrested two men.

Mine owners of the Interstate district offer miners an increase of five per cent. in wages to prevent a strike next month.

The Chicago drainage canal, Illinois and Michigan canal and the Illinois river will hereafter be regarded by the national government as navigable streams.

According to figures given out by the census bureau nearly one-tenth of the people in the United States are illiterate.

Secretary Root accepted the resignation of Herbert G. Squiers as minister to Cuba, the vacant post being taken by Edwin J. Morgan.

Robbers smashed a window at No. 76 Madison street, Chicago, at six o'clock at night and stole diamonds valued at \$2,000.

Korea will make a strong appeal to President Roosevelt to continue diplomatic relations, urging this as the only means of preventing absorption by Japan.

Senator W. B. Allison, of Iowa, in an interview in Chicago, said he expected congress to pass railroad freight and insurance laws.

The senate commerce committee has received a copy of the rate bill prepared by the Interstate commerce commission, in which it asks for rate-making power.

New York university council, in special meeting, decided to follow Columbia's lead and abolish football.

The Sultan of Turkey will be careful not to carry his obstinacy to such lengths as to cause the allied powers to send a fleet to Constantinople.

William T. Reid, Jr., Harvard's head football coach, has been summoned to the white house by President Roosevelt to "talk over the football season."

The village of Rocca Sorazzo, near Lucre, Italy, has been entirely destroyed by a landslide, with the exception of a church. Fortunately there were no victims, the inhabitants having fled.

President Roosevelt, after a conference with his advisers, has let it be known that he stands firm for the passage of a railway rate regulation law and is not willing to accept a compromise.

District Attorney Jerome, at a banquet in New York, denounced supreme court justices who owe their berths to politics.

District Attorney Jerome, at a banquet in New York, denounced supreme court justices who owe their berths to politics.

FIFTY-NINTH SESSION OPENED

CONGRESS CONFRONTED WITH DIFFICULT QUESTIONS.

Will Be Called Upon to Pass Upon Problems of More than Usual Significance.

Washington, Dec. 1.—The first session of the fifty-ninth congress convened yesterday at 12 o'clock. Vice President Fairbanks called the senate to order, while the house was called to order by C. Clark McDowell.

This session of congress will be the most important of President Roosevelt's administration, and one of the most important of recent years, excepting the one which declared war against Spain in defense of Cuban liberty. It will be a session in which grave questions of internal economy will come up, and questions concerning our attitude toward other countries, and it will require the wisest statesmanship to steer the ship of state safely through all the difficulties that may beset it.

Congress will be called upon to pass upon eight questions of more than local significance, three of which are international and five purely national. The three former have to do with Germany and our trade in that country; the Roosevelt commodity to the Monroe doctrine, as illustrated in the Santo Domingo situation, and the isthmian canal. The five latter embrace railroad rates, insurance, statehood, the federal deficit and Reed Smoot.

For Work on Canal.

Washington, Dec. 1.—Representative Hepburn yesterday introduced a bill to amend the Panama canal law, so as to facilitate the sale of bonds and appropriate \$10,000,000 to be immediately available for canal construction. The bill provides that the \$10,000,000 appropriated shall continue available until expended, but it is provided that the expenses from the appropriation shall be reimbursed to the United States treasury out of the proceeds of the sale of bonds.

The bill provides that a detailed statement of the expenditures from this and subsequent appropriations for the construction of the isthmian canal shall be made annually to congress at the beginning of each regular session.

Lane to Succeed Fisher.

Washington, Dec. 1.—Senators Perkins and Flint, of California, called on the president yesterday to discuss with him the appointment of a successor to former Governor Fisher of Illinois on the interstate commerce commission. At the conclusion of the conference the announcement was made that the president would appoint Franklin Lane of San Francisco to the vacancy created by Mr. Fisher's resignation, which takes effect Jan. 1 next.

Crawford Hanged.

Elk River, Minn., Dec. 1.—G. D. Crawford, murderer of Heine Lundeen, sentenced to die for his crime, was hanged here at 11:15 this morning.

She'll Ward of Elk River collapsed and was unable to pull the drop. Sheriff Derrick of St. Cloud then pulled the trap and Crawford was killed by the fall.

There were present about thirty persons, but no one was there to represent Crawford, not even his attorney. This, it is claimed by some, was a flagrant violation of the law.

A final attempt to save the life of Crawford was made yesterday by his attorney, E. S. Cary of Minneapolis. Cary applied to Judge Seales for a writ of habeas corpus. The judge granted the writ, held a hearing on the writ at once and then remanded Crawford to the sheriff.

Cary then appealed to Attorney General Young and asked if he would not consent to a stay of proceeding until the constitutionality of the law could be tested by the supreme court. This the attorney declined.

Must Stay on Claims.

St. Paul, Minn., Dec. 1.—Several hundred of the landowners, both men and women, who were fortunate enough to draw homesteads in the ceded portion of the Rosebud Indian reservation in Gregory county, and who have resided on their land during the summer and fall, have received a severe jolt from the commission of the general land office in connection with their applications for leave of absence from their homesteads during the winter months. Hundreds of the applications were forwarded to the general land office in Washington, but four-fifths of them have been returned, having been rejected by the commission.

Some of the applicants, thinking their applications would without doubt be granted, had departed for their old homes in other states, but they will now be compelled to return and maintain a residence on their claims.

To Drain the Valley.

Washington, Dec. 1.—The North Dakota delegation will meet this month to consider ways and means for drainage of the Red river valley in its state. Members claim the valley should be reclaimed and the matter is one to be dealt with by the reclamation service.

His Shortage.

Red Wing, Minn., Dec. 1.—The jury in the case of the Pine Island Farmer's Elevator company against M. E. Billings brought in a verdict for \$1,194.45 for the plaintiff. In 1901 and 1902 Mr. Billings was the manager for the company, which is located at Pine Island. This verdict includes interest amounting to \$124.74. Mr. Billings was found to be short in his accounts. The defendant intends to carry the case farther.

The jury reached verdict after deliberating twelve hours.

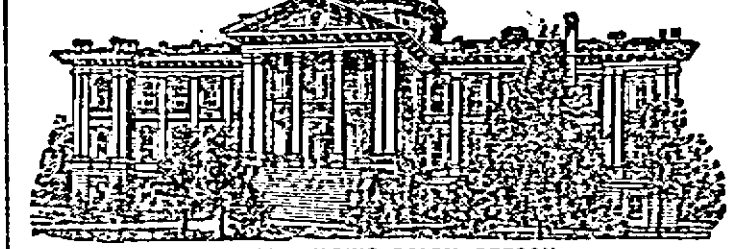

Must Move Village.

Two Harbors, Minn., Dec. 1.—What is strongly indicated by the character of the work now being done at a mine which lies under the present townsite of Sparks, on the Mesabi range, it now is practically certain a large body of ore is there and that the business part of the town at least will have to be moved before many months. The new three-compartment incline shaft is down about thirty feet, and is progressing rapidly.

A new engine house is now being erected.

GOVERNOR OF OREGON

Makes Use of His Family Pe-ru-na In For Colds.

CAPITOL BUILDING, SALEM, OREGON.

A letter from the Ex-Governor of Oregon.

The ex-Governor of Oregon is an ardent admirer of Peru-na. He keeps it continually in the house. In a letter to Dr. Hartman, he says:

STATE OF OREGON, EXECUTIVE DEPARTMENT. Dear Sirs:—I have had occasion to use your Peru-na medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly, W. M. Lord.

It will be noticed that the Governor says he has not had occasion to use Peru-na for other ailments. The reason for this is, most other ailments begin with a cold.

Ask Your Druggist for Free Peru-na Almanac for 1906.

NUGGETS OF NONSENSE.

Marie—"Well, I shall make one man's life happy, anyway." Marie—"Oh, I see! You are not going to get married."

Patience—"What reason had she for marrying him?" Patience—"Why, he had money." Patience—"That is not a reason; that is an excuse."

WISCONSIN STATE NEWS

Estate Goes to State.

Madison.—Assistant Attorney General Frank M. Tucker returned from Shawano, where he represented the state in the settlement of the estate of Peter Estenson, who died without leaving any known heirs. His estate valued at \$1,290, escheated to the state. Rev. O. C. Meybe, a Norwegian Lutheran minister, filed a claim for \$170 for services in writing letters and performing other acts for the decedent. The court allowed the minister's claim at \$300.

Wisconsin Banks Prosperous.

Madison.—The latest report of Bank Examiner Berg shows most gratifying signs of prosperity among the people of Wisconsin. In the ten weeks since the previous report there has been an increase in deposits of \$2,600,000. As compared with last year there is an increase of about \$3,600,000 in the total resources of the state and savings banks of Wisconsin. During the year there has been an increase in deposits of over \$3,600,000.

Heyl Wins Decision.

Milwaukee.—Jacob Heyl won the decision in court and the Schandelen lawsuits. By its provisions Heyl gets the bulk of the estate of \$7,500,000 left by his mother-in-law, Mrs. Schandelen. The suit has been bitterly contested by the other children of Mrs. Schandelen and attracted much attention. The case will positively go to the supreme court.

Indicted Alderman Dies.

Milwaukee.—Charles Cooke, a former alderman of the Fourth ward of the city and against whom seven indictments for alleged grafting were returned by recent grand juries, died of dropsy after a long illness. Cooke was at one time a power in politics in the city and was repeatedly elected to the common council from the Fourth ward. He was a democrat.

Owed Nearly \$50,000.

Milwaukee.—An inventory of the estate of the millionaire packer, William Plankinton, shows that he owed nearly \$50,000 to banks, etc., at the time of his death, all secured with stocks, bonds, etc. This cuts down the supposed total of the estate.

Fine Turkey for President.

Beloit.—Herman Reimer, a farmer living near this city, has a 60-pound turkey which he is fattening for Christmas present for President Roosevelt. It is the finest specimen of a turkey ever seen in this part of the country.

The News Condensed.

La Crosse.—With frost burned to crisp, and every vestige of clothing gone, the body of Mrs. Mathilda Naack, 70 years old, was found by a dog near her home. Mrs. Naack was evidently the victim of an explosion of gasoline.

Milwaukee.—The famous Edgerton \$75,000 farm has been presented to the Masonic order as a home for aged members.

Long Beach.—Nathaniel Carwell, aged 81, who lived in Bear Valley 45 years, died of old age.

Milwaukee.—Holy Ghost Evangelical Lutheran church, Concordia avenue and Sixth street, in process of erection, was damaged to the extent of \$9,000 by the severe gale which blew over Milwaukee.

Marquette.—Every day now men are going into the woods for the winter, the destination those going at this time being far north. It will be only a short time now until all the winter camps will be in operation.

Marquette.—Veteran hunters say that there has never been a time when the game laws have been enforced so well in Marquette county.

Tomahawk.—The six-year-old son of Myron Dorthick was burned to a crisp in a fire which destroyed their home.

Racine.—The Racine county board decided to increase the salaries of some county officials, but the increases will not take effect until after January 1, 1917.

Highland.—Considerable attention is being paid to the mining lands lying between Highland and Cobb, a number of eastern parties having recently obtained several valuable leases in this locality. It is their intention to begin work at once.

Black River Falls.—Milo Tirm, a farmer, was killed by a fall from a wheel of hay.

Racine.—During the coming session of the house of representatives Mr. Cooper will introduce a special bill which will provide for the payment of a pension to Richard Nelson, who served with company F during the Spanish-American war.

Janesville.—Sixty with letters six inches tall have been posted throughout Janesville: "Do not spit on the walk—\$10 fine." This in compliance with the ordinance passed by the council some months ago, but never enforced.

Mound.—While digging a well on his 80-acre farm near here, Charles Eggers found gold nuggets at a depth of six feet. Further prospecting revealed to him what he believes is a veritable Eldorado. He washed out \$2,000, and all near the surface.

Columbus.—This city has planned a great "home coming" celebration to take place in September, 1906. It is practically assured that the Hon. Carl Schurz and former Gov. W. D. Hoard will be the principal speakers.

Milwaukee.—A total of more than 400 deer carcasses have been received already in Milwaukee. Many ducks and deer heads have been confiscated.

Long Beach.—W. J. Hood, of Spring Green, and Thomas McGill, of Clyde, were killed by a traction engine, which broke through a wagon bridge, turned over and dropped 12 feet onto the men in five feet of water.

Rock Elm.—William Haise's child, aged two, fell into a tub of boiling water and died the same day.

Pond du Lac.—Mrs. Louis Koepf was struck by a street car. She sustained a broken hip and a broken leg and also a bad gash on the head. She is 74 years old.

Kenosha.—August F. Welkopf, aged 41 years, a member of Welkopf & Co., Chicago, and one of the best known business men of Kenosha, died at the old Welkopf home here. The death of August Welkopf was the

FRESH BREAD

PECK'S BAD BOY WITH THE CIRCUS

By HON. GEORGE W. PECK

Author of "Peck's Bad Boy at School," etc.

Pa Finds the Fat Lady a Burden—The Bad Boy Makes His First Public Appearance—He Talks Politics with the Midget—Pa Meets with Numerous Accidents.

May 1.—We had the darndest time getting packed up and started on the road. How in the name of heaven we ever got half the things on the cars is more than I know, but it seems as though the circus company had a man to look after every thing, and he had men under him to look after his regular share of things, so when the cars were loaded, and the boss clapped his hands, and the engineer tooted his whistle, there wasn't a tent stake or a rope, or a board seat, or anything left behind. Every man

They Threw Boiled Potatoes and Scrambled Eggs at Pa.

knew exactly where the things were that he was responsible for, so he could lay his hands on them in the dark, and he knew just what wagon his stuff was to go in.

Ge, but you talk about system, there is no business in the world that has a system like a show on the road. Every performer was in his or her section in the sleeper, and pa and I got an end section with the freaks, the fat woman across the aisle from us. That fat woman is going to make life a burden for pa, I can see that plain enough. She is engaged to the living skeleton, and he sleeps in the upper berth, over her, and he is jealous of pa, while the fat woman has got to depending on pa to do little things for her.

Of course, the first night out is always the worst on a sleeper, and the poor woman is nervous, and when the animal train, in the second section, ran on a side track beside our train of sleepers, and Rajah, the boss lion, got woke up and exploded one of his roars, within six feet of the fat woman's berth, she just gave one yell, and reared up, and came down hard in the berth. Something broke, and she went right through the bottom of the berth to the floor, doubled up like a jackknife.

Pa got up and went to her berth,

She Kicked Pa's Hat Off.

though I told him to keep away, cause he would get into trouble. First he stumbled over one of her shoes, and said he thought he had told everybody to keep their footsteps valises in the baggage car, and that made her mad. Then he tracked in the berth and got told of one of her feet, and pa got the men to help, and they got her out, but she seemed all squashed together. She sat up all night and wanted to lean on pa, but the skeleton kept his head over the rail of the upper berth and his snake-like eyes never left pa all night.

The bearded woman got up out of her berth about daylight, to go to the toilet room for a share, or a hair cut, or something, and when she saw pa trying to soothe the fat woman and told her from breaking in two, she screamed and slipped pa's face, and had a mess of hysterics. The fat woman grabbed a couple of handfuls of female whiskers, and was going to pull them out by the roots, when the bearded woman begged her not to pull them out, as to lose her whiskers would destroy her means of livelihood.

Then the bugle blew for everybody to get up and go to the show lot, and put up the tents for the first show of the season. When we got out of the sleeper we asked where we were, and a man told pa we were at Peoria, Ill., and he wanted pa to give him a complimentary ticket for telling what town we were in, but pa looked fierce at the man and asked what kind of an easy mark he took

him for, and the man slunk away. You wouldn't think they could unload those two trains of cars, about 80 in all, in a week, but when we got out the horses were hitched on the wagons, and in 15 minutes they were loaded and on the way to the lot, and pa and I got on the first wagon.

Talk about system. The surveyors were there ahead of us, and had measured off the lot and pushed wire stakes in the ground where the grub tent was to be, and when the first wagon of the grub outfit arrived, which contained a big range, big enough to cook for a thousand men, stove pipes were put on, which telescoped up into the air, and in two minutes a fire was built and bacon and potatoes and coffee were cooking, local bread wagons were unloading bread on the grass, 50 men put up poles and spread the tent on, and others set up tables in the tent, and in half an hour breakfast was served to the first 500 men. Pa and I drew up to the first table, but there was a yell to "put 'em out," and we found we had sat down to the table of the negro canvasmen, and they struck because they would not associate on an equality with white trash.

Ge, but pa was mad. He said he was as good as any nigger, and that made them mad and they threw boiled potatoes and scrambled eggs at pa, and we had to retire, but when pa complained to the boss canvasman, he told

him for, and the man slunk away. You wouldn't think they could unload those two trains of cars, about 80 in all, in a week, but when we got out the horses were hitched on the wagons, and in 15 minutes they were loaded and on the way to the lot, and pa and I got on the first wagon.

When the crowd had gone into the big show tent, what do you think, that confounded midget began to ask me how I stood on the tariff question, and he argued for free trade, whatever that is, for half an hour, and made me think of Bryan during a campaign, and then he branched off on to the Monroe doctrine, which I suppose is something connected with a rival show, and I guess he would be talking yet, only a big, husky fellow came along, a fellow about 25 years old, and he stooped over and put his hand on the midget's shoulder and said: "Hello, dad," and by gosh, the midget introduced me to the big galoot as his youngest son. Wouldn't that skin you?

The first day of the season was great, only all the performers had not got limbered up. One of the girls on the dying trapeze fell off into the net from the roof of the tent and broke her suspenders, so when they got her down in the ring it seemed as though everything she had on was going to shuck loose, and leave her with nothing but a string of beads, and pa went up to wrap his coat around her, and she kicked his hat off and ran into the dressingroom. The audience just yelled, and pa blushed scarlet, 'cause he saw it was a put-up job to make him ridiculous.

During the chariot races pa had to jump like a box car to keep from being run over by a four-horse chariot driven by a one-horse girl, and the attendants dragged pa out from under a bunch of horses being ridden barebacked, like fury. Then two horses hitched together with a strap were being ridden by a woman, the strap broke and the horses spread apart, and some one yelled that she had split clear in two. Pa rushed in to help carry one-half of her into the dressingroom, but she wasn't hurt at all, 'cause the peanut boy told me she was a rubber woman, and you could stretch her half way across the ring, and she would come together all right, and eat a hearty meal. Ge, but a circus is a great place to study human nature.

In the evening performance at Peoria there came up a windstorm which blew down part of the menagerie tent, where the freaks were, and when the storm was over, and the tent top was pulled up again, they found pa all right. He started to crawl under the canvas, and ship out for fear of the animals, but the fat lady caught him and sat down on him.

pa to go and eat with the freaks and try and keep in his place. We got breakfast at another table, and then we went out on the lot to superintend the putting up of the big tents. The greatest thing was a wagon containing a miniature pile driver, run by steam, which was driven around outside of where the big tents were to be, and it drove down the big stakes so quick it would make your head swim, and the grounds were covered with Peoria people who wanted to see how it was done.

Pa imitated the boss canvasman by walking around the lot with his coat over his arm, and a dirty shirt on, trying to look tough, and he bossed the sightseers about, and acted cross, and told a man and woman with a baby wagon to get off the lot, but pa was called down by the principal owner of the show good and plenty.

Said the owner to pa: "Remember, the success of our show depends on the friendship and good will of the people who think enough of us to come out to see us set up keeping house, and that they are all our guests, and if they get in our way we should go around them, and look pleasant. We must not get the big head and show that our hair pulls, and that we are tired and cross."

This is a place of amusement, and all connected with the show are expected to keep up a show, instead of causing bruises, and if you ever see an embryo of this show treating a visitor unkindly, send him to the ticket wagon to get his wages, and tell him to go away quick, and stay away long."

You could have lit a match to pa's face, it was so red hot, but he learned a lesson, for I saw him holding a tired mother's baby up on his shoulders, so it could see the drove of camels come up to the lot from the train, soon after it was great to see all the tents go up as if raised by machinery, and after all were erected, and the rings were grafted, and the animals in the menagerie tent all fed and watered, and the performers in the dressing room ready for the afternoon performance, pa was the proudest man ever was. He walked all around, inspecting everything, and kicking occasionally at something that got balled up, and when the crowd came to buy tickets, he stood around the grand entrance, looking wise, and he was so good natured that he bet ten dollars he could guess which walnut shell a bean was under, which a three-cent monte man was losing money at, and pa lost his ten with a smile. He said he wanted to be kind to the patrons of the show.

This was my first appearance in the show business. I had to stand up beside the giant, to show how little I was, and then I had to stand up beside the midget to show how big I was compared with him. It

went all right with the giant, 'cause he was so big I was afraid of him, but I thought the midget was about my age, and needed protection, and when the crowd surged around us I said: "Don't be afraid, little fellow, I will see that no one harms you." The look he gave me was enough to freeze water.

When the crowd had gone into the big show tent, what do you think, that confounded midget began to ask me how I stood on the tariff question, and he argued for free trade, whatever that is, for half an hour, and made me think of Bryan during a campaign, and then he branched off on to the Monroe doctrine, which I suppose is something connected with a rival show, and I guess he would be talking yet, only a big, husky fellow came along, a fellow about 25 years old, and he stooped over and put his hand on the midget's shoulder and said: "Hello, dad," and by gosh, the midget introduced me to the big galoot as his youngest son. A LESSON IN MANUAL TRAINING

PRACTICAL POINTS FOR BOYS WITH AMBITION AND GENIUS.

Description of a Desirable Style of China Rack—An Extension Book-Rack for Library Table.

BY JAMES RITCHIEY, (Instructor in Wood Working and Pattern Making, Armour Institute of Technology, Chicago.)

(Copyright, 1906, by Joseph B. Bowles.) In Fig. 171 is illustrated another very desirable style of china rack in which the wide shelf is at the bottom, including all distances, and also the radii of the curves, so that it may be readily transferred, full size, to heavy paper from which a pattern can be cut. The upper strip of the rack should be cut to the form shown at B.

In Fig. 172 the two shelves are shown

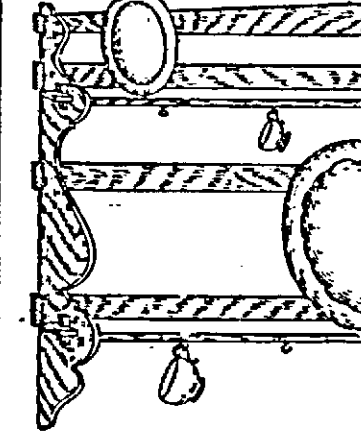

Fig. 171.

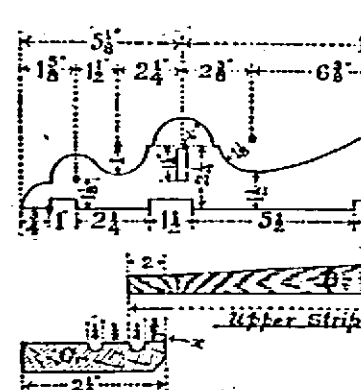

Fig. 172.

In detail, and also the way in which the four wedges are cut apart after being shaped in a single block. In addition to the small one-quarter-inch grooves, shown in the cross-sections of the two shelves at C and D in Fig. 172, a small strip one-quarter inch wide and one-eighth inch in thickness should be glued on the upper side at the front of each, as shown on the shelf C at x. This strip can be omitted if desired, but it adds not only to the appearance of the rack, but also to the safety of the articles placed on the shelves.

The stock list for this china rack is as follows:

- 2 pieces 24x14x1/2" - sides.
- 1 piece 24x14x1/2" - lower shelf.
- 1 piece 24x14x1/2" - upper shelf.
- 2 pieces 24x14x1/2" - strips to glue on shelves.
- 2 pieces 24x14x1/2" - back pieces.
- 1 piece 24x14x1/2" - upper back piece.

The construction of this china rack may be greatly simplified by omitting the tenons on the ends of the shelves and the corresponding mortises in the sides, and instead using two one and one-half inch No. 10 round-head brass

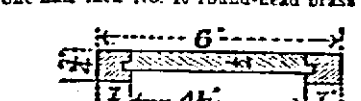

Fig. 173.

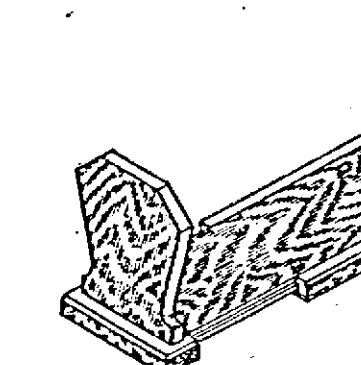

Fig. 174.

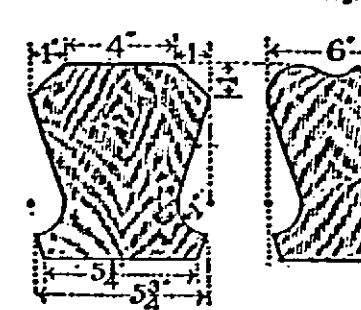

Fig. 175.

screws through the side and into the end of each shelf. This construction will prove equally strong and greatly reduce the work of construction.

EXTENSION BOOK-RACK.

A very pretty extension book-rack for use on the library table is illustrated in Fig. 176. At A is seen a cross-section through the sliding base, including the

Bad Form at Dinner. It is bad form to notice accidents at the dinner table. If the waiter happens to spill a cup of chicken gumbo down your back, don't let it disturb you in the least. Remark that you usually take chicken gumbo that way and continue the small talk.

Easy for George. "Did George ask your father for?" "No," he told pa that he had just inherited \$100,000 and pa offered me to him."—Houston Post.

It Pays to Advertise. An Oklahoma girl advertised for a husband, and got him. The total expense for advertising, wedding outfit, etc., was \$11. He died within a year, leaving her an insurance policy of \$10,000. And yet some people claim that it doesn't pay to advertise."—Sparks (Okla.) Review.

Bad Risks. German insurance companies refuse to take any risks in the case of Alpine climbers unless an expert guide is one of the party.

width of the several pieces of which it is composed. At A in Fig. 175 the dimensions of the slide are given, and also the

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor. The growth of a tumor is so slow that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse menstruation, accompanied by unusual pain, from the ovaries and have led with your mother-in-law. If you have any of these indications of inflammation or enlargement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Fannie D. Fox, of Lynn, Mass., will give you her advice free of all charge if you will write her about yourself. Your letter will be seen by women only. Dear Mrs. Pinkham:—

I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eleven months ago my mother-in-law, who was a very old lady, had a tumor on her stomach, and was told that she had to have an operation. I had read of your advertisement in the Boston Herald, and I had tried your Vegetable Compound a trial. After trying five bottles as directed the tumor was entirely gone. I have been examined by a physician and he told me that I had no tumor now. It has also improved my general health, and I am now, and I am entirely well.—Fannie D. Fox, 7 Chestnut Street, Lowell, Pa.

IDEAS OF INVENTORS. One of the machines exhibited at the dairy show recently held in London was a neat contrivance by which butter could be made out of fresh milk in 60 seconds at the tea table. The west-gold output may be doubled by the invention of a resident of Colorado City. It is a simple machine for saving flour gold, is run by a gasoline engine, and may be taken anywhere. Experiments on twice-treated tailings or mine refuse show an accumulation of five and one-half pounds of gold in ten days.

An ingenious respiratory apparatus for the use of firemen has been invented by Charles E. Chapin, of Berkeley, Cal. It consists of a hood lined with oiled silk to cover the head, and an air cylinder which is strapped on the back. The cylinder is divided into three chambers, carrying under a pressure that can be regulated enough air to last an hour.

The best paper cloth so far produced seems to be that made by a patented process used in Saxony. One kind is spun and woven from narrow strips of paper; a second variety contains cotton with the paper; and a third grade—the best—results from a mixture of wool and paper. The new material—though not so strong and durable as ordinary cloth—yields cheap, scrubbable, and even washable clothing.

An electric generator to be driven by the draught of a locomotive is a curious recent invention. The entire apparatus comprises a fan motor placed in the smoke stack, an electric generator and auxiliary dyes near the bottom of the boiler. The theory is that under certain conditions the draught from the smoke box will supply the fan with considerable power. This will operate the generator, cause an electric current to heat the auxiliary tubes, and thus deliver the excess of energy of the exhaust to heat the water in the "dead" space of the boiler.

THE "COFFEE HEART." It is as Dangerous as the Tobacco or Whisky Heart. "Coffee heart" is common to many coffee users and is liable to send the owner to his or her long home if the drug is persisted in. You can run 20 or 40 yards and find out if your heart is troubled. A lady who was once a victim of the "coffee heart" writes from Oregon: "I have been a habitual user of coffee all my life, and have suffered very much in recent years from ailments which I became satisfied were directly due to the poison in the beverage, such as torpid liver and indigestion, which in turn made my complexion blotchy and muddy."

"Then my heart became affected. It would beat most rapidly just after I drank my coffee, and go below normal as the coffee effect wore off. Sometimes my pulse would go as high as 120 beats to the minute. My family were greatly alarmed at my condition and at last mother persuaded me to begin the use of Postum Food Coffee."

"I gave up the old coffee entirely and absolutely, and made Postum my sole table beverage. This was 6 months ago, and all my ills, the indigestion, inactive liver and rickety heart action, have passed away, and my complexion has become clear and natural. The improvement set in very soon after I made the change, just as soon as the coffee poison had time to work out of my system."

"My husband has also been greatly benefited by the use of Postum, and we find that a simple breakfast with Postum is as satisfying and more strengthening than the old heavier meal we used to have with the other kind of coffee." Name given by Postum Co., Battle Creek, Mich.

There's a reason, Read the little book, "The Road to Wellville," in type.

First Come, First Served. A week before commencement Jones, a senior, who was weary of boarding-house fare, was happily engaged in donning his dinner clothes. A smile of delighted anticipation played upon his features when Robbins entered in a dinner coat.

"Hello, Charley!" greeted Jones, cheerily. "What's up?" "Oh, nothing up," said Robbins. "I'm just going round to the Clemenses to call—going to see if I can't get asked to dinner."

"The smile faded slowly from Jones' features." "Oh, I say, Charley," he expostulated, "can't you go somewhere else? I was going there."—Youth's Companion.

Jehus Silenced. The omnibus companies of London are contemplating the issue of an order prohibiting their drivers from conversing with passengers. The Evening Standard remarks: "The chief sufferers will be the visitors from America or the rural districts. To them the bus driver is invaluable as a guide to the lions."

The Uncontentions. Many commanding men are easily controlled by those who seem to be other than commanders.

(Continued from first page.)

lers of his table interested in music. U. L. H. developed some talent and became so much interested in "Jazz" that he did not notice his supper had been stolen and led to Yapp and Sturdevant. Pen Lewis was the only one who lived up to the agreement of eating no supper at 6 o'clock the same evening. He brought his appetite along also. At one table we noticed the mayor, a brewer, two lawyers, two doctors, two ministers, and the undertaker occupying the place of honor at the head of the table, a fine combination. The first meeting was thoroughly enjoyed, and the members look forward with much pleasure to future meetings.

Following is the paper of Dr. Welch, which occasioned much favorable comment:

FRATERNITY AND SOCIAL CLUBS.
GENTLEMEN:—It being somewhat out of my line to address public gatherings, I beg of you to bear with me while I struggle through a few remarks on the subject assigned to me: "Fraternity and Social Clubs." I shall not endeavor to go into technicalities as to ways and means; but shall confine my remarks to some of the causes which lead to fraternal and social relations of men.

The natural span of the life of man is approximately thirty odd thousand settings of the sun. We may conveniently divide his life into three distinct parts.

The first part of his life, marking the first ten thousand settings of the sun, is largely passed in development of body and mind. He mingles freely, acquires impressions, education and manhood. The gaieties and frivolities of the earth mark this portion of his life.

During the second portion of life, the second allotment of ten thousand settings of the sun, he acquires the climate of manhood. His arena of operations is more widespread. He comes in contact with a greater number of his fellowmen; so great is the number that he finds it necessary to particularize in regard to his fraternal and social relations with them. We may be able to realize the commercial value of men, by meetings in the busy marts of trade; but the true intrinsic value of a man is only learned fraternally and socially.

Although this is the busiest period of a man's life, yet he should sacrifice a portion of the time in cultivation of fraternal and social relations, that he may enjoy the third portion of his life. And too, he may in this way wash away many of the stains and marks of trade received daily in this busy age.

The man who mingles most in this stage of life eventually becomes the broadest and best developed man. For, general knowledge of the world has become so broad, so deep and so wide, that no individual nor set of individuals can hope to learn it all, but by associations we may learn a fair portion.

As life begins to wane and the third allotment of sunsets gradually drifts away, man naturally seeks to fraternize more and more. His ability to do this largely depends upon his past life and the character which he has developed.

If he has been a greedy, grasping monopolizing individual, and neglected the better side of life to the detriment of his fellows, then he must abandon the broad highway of life and follow its bypaths alone.

The cowboys of the Western plains, in charge of large herds of cattle, nearly always have an individual animal following the herd, which they term "A Sour Bull." They will explain to you that this is an old animal which has been in the herd for years and years. He knows where the choicest grasses grow, he is always first at the watering places, and never fails to take advantage of this knowledge. The herd notices this, book him out and drive him away, so that he is compelled to travel at a distance from the main body.

It has been observed that among the ancient Egyptians, the chief aim of life seemed to be to be buried. Many, however, even today, live as if this were the principle object of their existence; and many with whom they come in contact, sincerely hope their object may be speedily attained.

Lack of fraternalism and sociability is as great a fault as love of debauchery and self aggrandizement.

An ancient philosopher has said: "Men seek retreats, houses in the country, seashores and mountains and we are wont to desire such too much. But this is altogether the mark of the most common sort of men, for little within his power, whenever he shall choose, to retire within himself. For nowhere, either with more quiet or more freedom from troubles does a man retire, than into his own soul, particularly when he has within him, such thoughts that by looking into them he has immediate tranquility of mind." Happy indeed is the man who has such a sanctuary in his own soul. To be good company for ourselves requires a well-ordered mind. With pleasant memories of the past and reasonable hopes for the future.

Who of us today can alone protect ourselves from self reproach, from care, and from anxiety? Can we alone resist the temptations and evils spread upon our every path? Throughout the long busy days of this commercial age many knocks and bruises are inflicted in the strife.

After the sun goes down, after the close of the day, it seems good to the intellectual man to mingle with his colleagues of life. He seeks companionship and is more or less consoled thereby.

Where may we look for the daily toll in the evening hours? The tired, patient and oppressed family man is seeking relief in the bosom of his family. Too often, he seeks in vain. The educated and prosperous business man, often has a pleasant chat with a fellow worker on the way home and that ends his social affairs for the day.

Now, between these two classes there is another and a larger class, made up of a portion of these and a restless, dissatisfied and lonesome element. Where in the city of Rhinelander, do we find this class? In various places, but mostly in the licensed saloon. And why do we find them there?

First, because our city is reeking with this class of business places, recognized as legitimate by our system of government, both general and local, (in consideration of an annual stipend.)

Second, because in this city there are but few places for rest and amusement.

Third, because there they find congenial companionship, sociability, and welcome.

If there be evil wrought in these places, let the penalty fall upon the heads of those who sanction their existence by accepting a money consideration for the privilege of instituting them. If it is desirous on the part of any considerable body of men to divert patronage from such places, let us study how to do it.

We hear of academies of music, academies of philosophy, academies of medicine, but who ever heard of an academy of men?

Yet the study of man is a way high and above all other material things. His nature, his descent, his immediate surroundings, his ambitions, his various vicissitudes of life should interest all good men of affairs. The great brotherhood of man is benefited by the performance of small deeds in a sociable and liberal way.

Small deeds thickly scattered throughout life are productive of as great results as a single great performance.

A story is told of an old Hindoo who instructed his son to bring the fruit of a certain tree. Upon opening the fruit he asked "What do you find?" The son answered, "Some small seeds." "Break one of them, and what do you see?" The son answered, "Nothing." Whereupon the Hindoo said, "Where you see nothing there dwells a mighty tree."

So in life small acts may amount to great things; small beginnings may result in great endings.

I take it that this meeting is a fair representation of the various fraternal organizations of Rhinelander. I do not presume to offer instruction along the lines of fraternalism to a body of men like this. I dare say that the concerted action of this congregation of men would accomplish more along its fraternal line than any individual organization.

It seems to me the promotion of this club will result in great benefit to our city and country in general as to our individual citizens. I sincerely hope it may become a permanent organization.

MONICO.
Mrs. H. Berg did shopping in Rhinelander Tuesday.

The pump house burned down last week, a new one is being built in its place.

STATE OF WISCONSIN, COUNTY COURT FOR ONTARIO COUNTY.
In the matter of the estate of T. M. M. deceased, in Probate.

Letters testamentary on the estate of T. M. M. deceased, having been issued to said M. J. Higgins on the 1st day of December, 1905.

It is ordered, That six months from and after the date of the issuance of said letters testamentary, thereon be issued to the creditors of said estate, a notice to present their claims for examination and payment.

Ordered Further, That the claims and demands of all persons against said deceased be presented, examined and adjusted by the court at the next term thereof, to be held at the court house in the city of Rhinelander, Wisconsin, on the 1st day of June, A. D. 1906, and that notice thereof be given by publication of such notice for four successive weeks in the New Northern, a weekly newspaper published at the city of Rhinelander in said county.

By the Court.
Dated December 1, 1905.
LEVI J. BILLINGS,
County Judge.

STATE OF WISCONSIN, COUNTY COURT FOR ONTARIO COUNTY.
In Probate.

Notice is hereby given, that at the regular term of the county court, to be held in and for said county, at the court house in the city of Rhinelander, in said county, on the 1st day of January, A. D. 1906, after closing the business of said day, the following matter will be heard and considered:

The application of Edward M. McDonald, executor of the last will and testament of John H. McDonald, deceased, and that of John H. McDonald, executor of the last will and testament of John H. McDonald, deceased, to set aside and annul the probate of the last will and testament of John H. McDonald, deceased, and that of John H. McDonald, executor of the last will and testament of John H. McDonald, deceased, to set aside and annul the probate of the last will and testament of John H. McDonald, deceased.

Dated December 2nd, 1905.
By Order of the Court,
LEVI J. BILLINGS,
County Judge.

WE WIN THE LAURELS
In competition for beer supremacy with the Rhinelander brand. Purity, palatability and all round excellence prove our claim to first prize for all that's best in beer. Singularly enough our charge for this wholesome beverage is little if any more than that made for inferior goods. \$1.00 buys a case of pint bottles, with no additional cost for delivery anywhere in the city.
